

Safety Data Sheet

According to 1907-2006/EC, Article 31

Version: 1.0

1. PRODUCT AND COMPANY IDENTIFICATION

Product Trade Name: 50Sn32Pb18Cd Acid Core Wire Solder

Details of the supplier of the safety data sheet

This Safety Data Sheet has been updated in accordance with the Globally Harmonized System (GHS).

Manufacturer Name: Canfield Technologies/BOW Electronic Solders

Address: 1 Crossman Road, Sayreville, NJ 08872

General Phone Number: 732-316-2100

INFOTRAC 24 Hour Emergency Telephone Number: 1-800-535-5053

SDS Creation Date 6-Jan-15

SDS Revision Date: 6-Jan-15

2. HAZARDS IDENTIFICATION

Carcinogen Listed in: ECHA (Substance of very high concern)

Carcinogenic (Article 57a); Equivalent level of concern having probable serious effects to human health (Article F)

Primary Routes Of Entry:

Eye, Skin, Ingestion NTP IRAC OSHA

Classification of the substance or mixture

Classification according to Regulation (EC) NO 1272/2008

GHS08 Health Hazard

Resp.Sens. 1B **H334** May cause allergy or asthma symptoms or breathing difficulties if inhaled.

GHS07

Skin Sens. 1B **H317** May cause an allergic skin reaction.

Cadmium, lead, antimony

Label elements

Labeling according to Regulation (EC) No 1272/2008

This product is classified and labeled according to the CLP regulation.

Hazard pictograms

GHS08

GHS07

Signal word Danger

Hazard-determining components of labeling:

Lead (Pb)

Hazard Statements

H302 Harmful if swallowed

H317 May cause an allergic skin reaction.

H320 Causes eye irritation.

H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled.

H332 Harmful if inhaled

H351 Suspected of causing cancer (lead) (cadmium)

H360 May damage fertility or the unborn child.

H373 May cause damage to organs through prolonged or repeated exposure (applicable to lead containing product)

H400+H413 Very toxic to aquatic life, may cause long lasting harmful effects to aquatic life (lead)

H401+413 Toxic to aquatic life; may cause long lasting harmful effects to aquatic life (antimony)

EUH201A Warning! Contains lead. Review listing.

EUH207 Warning! Contains cadmium. Dangerous fumes are formed during use. Comply with the safety instructions. Review listing.

Precautionary statements

H233 Keep container tightly closed.

H261 Avoid breathing dust/fume/gas/mist/vapors/spray.

P270 Do not eat, drink or smoke when using this product.

P273 Avoid release to the environment.

- P280** Wear protective gloves/protective clothing/eye protection/face protection.
H362 Take off contaminated clothing and wash before reuse
P301+P312 If swallowed: Call a POISON CENTER or doctor/ physician if you feel unwell.
P302+P352 IF ON SKIN: Wash with plenty of water.
P304+P341 IF INHALED: If breathing is difficult, remove person to fresh air and keep comfortable for breathing.
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Other Hazards:

Potential Health Effects:

- Eye:** Eye contact with product or vapors may result in irritation, redness, and blurred vision.
Smoke during soldering can cause eye irritation
Ingestion: May be harmful if swallowed. May cause vomiting.
Inhalation: Inhalation of vapors, fumes or mist of the product may be irritating to the respiratory system.
May cause respiratory sensitization with asthma-like symptoms in susceptible individuals.

Chronic:

- Tin:** Has been shown to increase incidence of sarcoma in animal tests.
Lead: Prolonged exposure to vapors or fumes at higher temperatures may cause respiratory irritation and systematic Lead poisoning. Symptoms of lead poisoning include headache, nausea, abdominal pain, muscle and joint pain and damage to the nervous system, blood system and kidneys.
Signs and symptoms of exposure-anemia.
Cadmium: Overexposure can cause damage to the lungs and kidneys. Cadmium is a toxic metal and ingestion or inhalation of fumes and dust can be harmful. Inhaled effects may be obstructive lung disease such as emphysema, Bone demineralization, micro-fractures and osteomalacia, gastrointestinal symptoms, rhinitis and discoloration of the teeth.

Hazard description:

VHMIS HAZARD Symbols

D2A-Very toxic material causing other toxic effects.

Classification system:

NFPA ratings (scale 0-4)

Health = 2
Fire = 0
Reactivity = 0

Health = 2
Fire = 0
Reactivity = 0

Other hazards

Results of PBT and vPvB assessment

PBT: Not applicable

vPvB: Not applicable

3. COMPOSITION OF MIXTURE

Chemical characterization: Mixtures

Description: Mixtures of the substances listed below with nonhazardous additions.

CAS No.	Description	OSHA	ACGIH	% Range
		Permissible Exposure Limit-8 hour TWA	THRESHOLD Limit Value-8 hour TWA	
CAS: 7440-31-5 EINECS:231-141-8	Tin (Sn)	2	2 mg/m ³	50%
CAS: 7439-92-1 EINECS: 231-100-4	Lead (Pb)	0.05 mg/m ³	0.15 mg/m ³	32%
CAS: 7440-43-9 EINECS: 231-152-8	Cadmium (Cd)	0.005 mg/m ³	0.01 mg/m ³ Total dust / 0.005 mg/m ³ Respirable fraction	18%
CAS:25322-68-3 EINECS: 203-473-3	Polyethylene glycol			2.5-5.0%

Additional information:

This solder product contains a Substance of Very High Concern (SVHC) on the European Chemicals Agency (ECHA) CANDIDATE LIST. Cadmium as of 6/20/2013
Composition and weight percent of solder alloys varies widely and can be determined by product label.
Flux in core is typically 1-3% by weight.

4. FIRST AID MEASURES

Description of first aid measures

After inhalation:

In case of unconsciousness place patient stably in side position for transportation.
Supply fresh air, consult doctor in case of complaints.

After skin contact: Immediately wash with water and soap and rinse thoroughly.

After eye contact: Rinse opened eye for several minutes under running water.

After swallowing:

Induce vomiting, if person is conscious. Seek medical help.
Seek immediate medical advice.

Information for doctor:

Most important symptoms and effects, both acute and delayed. No further relevant information available.
Indication of any immediate medical attention and special treatment needed. No further relevant information available.

5. FIREFIGHTER MEASURES

Extinguishing media

Suitable extinguishing agents:

CO₂, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

Special hazards arising from the substance or mixture

In case of fire, the following can be released:

Carbon monoxide (CO)
Nitrogen oxides (Nox)
Carbon dioxide (CO₂)

Advice for fire fighters

Protective equipment: Wear self-contained respiratory protective device.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures: Ensure adequate ventilation

Environmental precautions: Do not allow to enter sewers/ surface or ground water.

Methods and material for containment and cleaning up:

Dispose contaminated material as waste according to item 13.

Ensure adequate ventilation.

Melted solder will solidify on cooling and can be scraped up. Use caution to avoid breathing fumes if a gas torch is used to cut up large pieces.

Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See section 13 for disposal information.

7. HANDLING AND STORAGE

Handling:

Precautions for safe handling: Prevent formation of dust.

Ensure good ventilation/exhaustion at the workplace.

Information about protection against explosions and fires: No special measures required.

Conditions for safe storage, including any incompatibilities

Storage:

Requirements to be met by storerooms and receptacles: Store in a cool location.

Information about storage in one common storage facility: Not required.

Further information about storage conditions:

Keep receptacle tightly sealed.

Store in dry conditions.

Exposure to sulfur or to high humidity will tarnish solder surface.

Specific end use (s) No further relevant information available.

8. EXPOSURE CONTROLS/ PERSONAL PROTECTION

Overheating of alloy can produce metal fumes and oxides. Machining operations such as grinding, sawing, buffing can generate airborne particulate in work area. The exposure levels indicated in section II are relevant to these and other operations. Following are symptoms of overexposure to the various ingredients:

7440-31-5 Tin (Sn): Dust of tin oxide may cause pneumoconiosis.

7493-92-1 Lead (Pb): Chronic overexposure to high levels of airborne or ingested lead may result in anemia, insomnia, weakness, constipation, nausea and abdominal pain. Prolonged overexposure may result in kidney and nervous system involvement and reproductive effects. Exposure may result in injury to a developing fetus.

7440-43-9 Cadmium (Cd): Dryness of throat, headache, shortness of breath and vomiting may occur from overexposure to fumes or dust.

NFPA RATINGS (SCALE 0-4):

HEALTH=2

FIRE=0

REACTIVITY=0

Exposure controls

Personal protective equipment:

General protective and hygienic measures:

The usual precautionary measures for handling chemicals should be followed.

Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing.

Wash hands before breaks and at the end of work.

Breathing equipment:

Exposure controls: Use appropriate engineering control such as process enclosures and local exhaust ventilation to control

airborne levels below recommended exposure limits.

When ventilation is not sufficient to remove airborne levels from the breathing zone, a NIOSH safety approved respirator or self-contained breathing apparatus should be worn. Consult with local procedures for selection, training, inspection and maintenance of the personal protective equipment.

Protection of hands:

Protective gloves

Material of gloves:

Nitrile rubber, NBR

Natural rubber, NR

Penetration time of glove material:

The exact break through time has to be found out by the manufacturer of the protective gloves and to be observed.

Eye protection:

Face Shield and safety glasses

9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

General Information

Appearance:

Form: Metal in wire, ribbon, or preformed shapes with a core of flux

Color: Silver grey

Odor: Odorless

Melting point/melting range: 117 - 1000 F

Vapor pressure: NA

Density at 20°C (68°F): 0.26-0.42 lb/in³

10. STABILITY AND REACTIVITY

Reactivity

Chemical stability

Thermal decomposition /conditions to be avoided: No decomposition if used according to specifications.

Possibility of hazardous reactions: No dangerous reactions known

Conditions to avoid: No further relevant information available.

Incompatible materials: Strong acids, strong oxidizers.

Hazardous decompositions products:

Carbon monoxide and carbon dioxide

When heated to soldering temperatures, the solvents are evaporated and organic material may release aliphatic aldehydes and acids.

11. TOXICOLOGICAL INFORMATION

Information on toxicological effects

Acute toxicity

Primary irritant effects:

On the skin:

Irritant to skin and mucous membranes.

Possible local irritation by contact with flux or fumes.

On the eye:

Irritant effect.

Smoke during soldering can cause eye irritation.

Through inhalation:

Flux fumes during soldering may cause irritation and damage of mucous membranes and respiratory system.

Through ingestion: May be harmful if swallowed.

Additional toxicological information:

Delayed and immediate effects as well chronic effects from short and long-term exposure:

Exposure to lead fume, if applicable, may cause harm by inhalation and ingestion. Chronic exposures to lead fume, if applicable, can cause potential harm to developing fetus.

Lead: Exposure can be toxic.

Cadmium: May cause cancer.

Carcinogenic categories

IARC (International Agency for Research on Cancer)

Cadmium 7440-43-9

Lead (Pb) 7439-92-1

NTP (National Toxicology Program)

Lead (Pb) 7439-92-1

Cadmium 7440-43-9

Listing OSHA:

Cadmium is listed as a possible carcinogen - US Occupational Safety & Health Administration

12. ECOLOGICAL INFORMATION

Toxicity

Aquatic toxicity: No further relevant information available.

Additional ecological information

General notes:

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

Danger to drinking water if even small quantities leak into the ground.

Result of PBT and vPvB assessment

PBT: Not applicable.

VPvB: Not applicable.

13. DISPOSAL CONSIDERATIONS

Waste treatment methods

Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

Disposal must be made in accordance with official regulations.

Uncleaned packaging's

Recommendations: Disposal must be made in accordance with official regulations.

14. TRANSPORT INFORMATION

Transport in accordance with applicable regulations and requirements

Not regulated/ non hazardous under US DOT (United States Department Of Transportation).

Not regulated/ non hazardous under international shipping requirements.

15. REGULATORY INFORMATION

Safety, Health and Environmental regulation/ legislation specific for the substance or mixture

All ingredients are listed on the following Government Inventories:

China: Inventory of Existing Chemical Substances in China (IECSC)

Korea: Korea Existing Chemical List (ECL)

Europe: European Inventory of Existing Commercial Chemical Substances (EINECS)

Japan: Inventory of Existing and New Chemicals Chemical Substances (ENCS)

Philippines: Philippine Inventory of Chemicals Chemical Substances (PICCS)

USA: TSCA (Toxic Substances Control Act) TSCA Inventory of Chemical Substances

The following information relates to product regulation specific to the USA.

SARA (Superfund Amendments and Reauthorization Act)

Section 355 (Extremely Hazardous Substances):

None of the ingredients is listed

Section 313 (Specific toxic chemical listings):

Lead (Pb) 7439-92-1

TSCA (Toxic Substances Control Act): Canfield Technologies certifies that all components listed below for the subject finished product are on the TSCA Inventory of chemical Substance and are not subject to any chemical specific regulation under TSCA

Section 12(b) export notification requirements delineated at 40 CFR part 707, subpart D.

All ingredients are listed or exempt from listing.

California Proposition 65

Chemicals known to cause cancer:

WARNING: This product contains a chemical (s) known to the State of California to cause cancer.

Lead (Pb)

Chemicals known to cause reproductive toxicity:

WARNING: This product contains a chemical (s) known to the State of California to cause birth defects and /or other reproductive harm.

Lead (Pb)

Carcinogenic categories

EPA (Environmental Protection Agency)

Lead (Pb) 7439-92-1

NIOSH-Ca (National Institute for Occupational Safety and Health)

None of the ingredients is listed.

OSHA-Ca (Occupational Safety & Health Administration)

None of the ingredients is listed.

CANADA:

Workplace Hazardous Materials Identification (WHMIS):

This product has been classified in accordance with the hazard criteria of the Canadian Controlled Products Regulation (CPR) and the Safety Data Sheet (SDS) contains all of the information required by the CPR.

Labeling according to Regulation (EC) NO 1272/2008

The product has classified and labeled according to the CLP regulation.

Hazard pictograms

GHS07

GHS08

Signal word Danger

Hazard-determining components of labeling:

Lead (Pb)

Hazard statements

- H302** Harmful if swallowed
H317 May cause an allergic skin reaction.
H320 cause eye irritation.
H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled.
H332 Harmful if inhaled
H351 Suspected of causing cancer (lead) (cadmium)
H360 May damage fertility or the unborn child.
H373 May cause damage to organs through prolonged or repeated exposure (applicable to lead containing product)
H400+H413 Very toxic to aquatic life, may cause long lasting harmful effects to aquatic life (lead)
H401+413 Toxic to aquatic life; may cause long lasting harmful effects to aquatic life (antimony)
EUH201A Warning! Contains lead Review listing.
EUH207 Warning! Contains cadmium. Dangerous fumes are formed during use. Comply with the safety instructions Review listing.

Precautionary statements

- H233** Keep container tightly closed
H261 Avoid breathing dust/fume/gas/mist/vapors/spray
P270 Do not eat, drink or smoke when using this product.
P273 Avoid release to the environment.
P280 Wear protective gloves/protective clothing/eye protection/face protection.
H362 Take off contaminated clothing and wash before reuse
P301+P312 If swallowed: Call a POISON CENTER or doctor/ physician if you feel unwell.
P302+P352 IF ON SKIN: Wash with plenty of water.
P304+P341 IF INHALED: If breathing is difficult, remove person to fresh air and keep comfortable for breathing.
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy

16. OTHER INFORMATION

The information contained herein is based on data considered accurate and is offered solely for information, consideration and investigation. Bow and Canfield Technologies extends no warranties, makes no representations and assumes no responsibility as to the accuracy, completeness or suitability of this data for any purchaser's use. This Safety Data Sheet relates only to this product and does not relate to use with any other material or in any process.

All chemical products should be used only by, or under the direction of, technically qualified personnel who are aware of the hazards involved and the necessity for reasonable care in handling. Hazard communication regulations require that employees must be trained on how to use a Safety Data Sheet as a source for hazard information.
